

On October 7, 2014, the NSCA Certification Committee approved the following Reinstatement Policy. This Policy provides individuals, who fail to complete the recertification process before the deadline, a new option to regain certification.

Reinstatement Policy

Individuals with expired certifications may petition NSCA for reinstatement of their certifications at any time. Reinstatement will be granted upon fulfillment of the following conditions.

- ➤ Presentation of documentation that all required CEUs were earned since the last successful recertification, during each missed recertification cycle, and earned in accordance with the requirements of the recertification policy in effect at that time.
- ➤ Payment of reinstatement and all related recertification fees of previous recertification period(s)
- > Presentation of current CPR/AED certification

Certificants who are denied reinstatement may appeal to the Certification Committee. The Certification Committee will review appeals at the Committee's next scheduled meeting and render a final decision.

Reinstatement Procedures

The reinstatement fee is \$200 plus previously unpaid recertification fees. Please contact NSCA if you are unsure if you qualify for reinstatement or have questions regarding the process. Individuals who wish to reinstate their NSCA certification(s) must complete the reinstatement application form and send it in, along with complete CEU documentation, current CPR/AED certification, and payment for requisite fees, to:
