APPLICATION

UNDERGRADUATE
STRENGTH & CONDITIONING PROGRAM

IMPORTANT INFORMATION AND INSTRUCTIONS

1. This application is submitted by a regionally accredited academic institution of higher learning within the United States (or the international equivalent) to the National Strength and Conditioning Association (NSCA) for recognition of their undergraduate program in strength and conditioning. The program must be part of a curriculum that offers a baccalaureate degree. The program does not have to be classified as a major, minor, sequence, or concentration. However, it does have to be a formalized area of study.
2. This recognition is valid for three years. The Education Recognition Program (ERP) does not imply accreditation or any advantage for the NSCA certification examination. The Undergraduate Strength and Conditioning ERP recognizes and distinguishes programs with standardized, specified curriculum approved by the NSCA.
3. Applications are reviewed two times per year. Application deadlines are April 1 and October 1 each year. Applicants will be notified of approval/non-approval by May 15 or November 15.
4. There is a \$500.00 administrative fee for <i>first-time</i> applicants due with this application. This fee is the only fee required during the three-year period of recognition.
5. Schools that have <i>not</i> allowed their recognition to expire, are eligible for Education Recognition program (ERP) renewal by submission of the renewal portion of this application for a renewal fee of \$400.00.
6. Schools that <i>have</i> allowed their recognition to expire, are eligible for ERP renewal by submission of the complete application and documentation for the initial fee of \$500.00.
7. Schools applying for recognition for multiple programs will receive 5% off of the application fee(s) for each additional recognition approved.
8. <u>Renewing institutions that have <i>not</i> allowed their recognition to expire are <i>only</i> required to provide the course content and documentation information from Section III that has changed since their last application.</u>
9. The application for recognition must provide complete information. Additional materials, such as syllabi, are required.
10. Applications and supporting documents must be in English.
11. Once approved, the institution may disclose their NSCA recognition on any forms, documents, or recruiting materials.
12. If an application is denied recognition, the administrative fee will be returned to the institution (minus a \$100.00 processing fee), along with the application and reason(s) for denial.
13. By completing this application, the institution authorizes the NSCA to identify them as an institution with a recognized curriculum in strength and conditioning. The NSCA may disclose this information in publications, websites, or any other means the NSCA deems appropriate.
14. To be recognized, institutions must have a Certified Strength and Conditioning Specialist® (CSCS®), who is a full-time employee involved in the educational program as a member of the teaching faculty. The CSCS does not have to be a full-time faculty member, but must teach a minimum of one class per academic year from the ERP required curriculum.
15. It is the intent of this recognition process to help institutions market their programs in strength and conditioning and to help institutions begin to prepare their programs for possible accreditation. Approval letters will include specific NSCA statements designed to market the school's educational program.

SECTION II

PROGRAM PERSONNEL | UNDERGRADUATE STRENGTH AND CONDITIONING

PROGRAM DIRECTOR

The Program Director is the person responsible for administering the academic program and ensuring that all rules and regulations are followed, and that the program is in compliance with the standards for recognition. The Program Director must be a member of the teaching faculty and have voting privileges in the academic unit that houses the program. Academic rank and tenure-status are irrelevant. The Program Director does not necessarily need to be a CSCS.

TEACHING FACULTY

The teaching faculty of the strength and conditioning educational program shall be identified as those faculty members responsible for teaching in the required subject matter areas specified in Section III, and other didactic course work included in the strength and conditioning curriculum as identified by the institution. Members of the teaching faculty must have formal appointments in the academic unit and must be financially compensated for their services. Rank and tenure-status are irrelevant. Members of the teaching faculty can be classified as full-time, part-time, adjunct, or graduate teaching assistants. At least one (1) member of the teaching faculty must be a CSCS and sponsor this application.

CSCS SPONSOR

At least one CSCS must be directly involved in the education of the students in the program as a member of the teaching faculty, and must sponsor this application. The CSCS sponsor must also be a full-time employee of the institution sponsoring this application. For example, a non-CSCS faculty member, or a non-CSCS department chairperson can be identified as the Program Director and can teach in the recognized strength and conditioning curriculum, as long as the institution employs a full-time CSCS who is directly involved in the educational program as a member of the teaching faculty, and who endorses this application.
